

Technical Data Sheet

Application fields:	Self-adhesive collar for sealing openings through the airtight level, e.g. for vapour barriers, sarking membranes.
<u>Adhesive sleeve</u>	
Material:	HDPE carrier film (Tyvek®) / polyacrylate adhesive glue
Colour:	white
Thickness:	approx. 0.2 mm Tyvek® carrier film / approx. 0.12 mm adhesive glue
Adhesive force:	> 25N/25mm
Tensile strength:	> 50N/25mm
Temperature resistance:	-30 °C to +100 °C
UV resistance:	very good
<u>Flexible sealing grommet</u>	
Material:	EPDM
Colour:	black
Hardness:	60 ± 5 Shore A (DIN ISO 48)
Density:	1.15 g / cm ³ (DIN ISO 1183-1)
Tensile strength:	11.6 MPa (DIN ISO 37)
Temperature resistance:	-30 °C to +100 °C
UV resistance:	very good
Storage:	cool and dry
Processing temperature:	+5 °C to +40 °C
Halogen-free:	yes
Processing notes:	The area must be dry, stable and free of dust and release agent. Folds and kinks must be prevented.
